Subject: RE: Exide Vernon public meeting(s)

Interest in Texas (Region 6) about the arsenic issues. Region 6 is having a public meeting about their Exide plant (shut down last November) and the public has been asking questions about what's going on in LA in case they should be concerned as well.

Yes, scheduled, but not made public yet. Check our website on Thursday or Friday. Or just e-mail me.

Probably not webcast.

Why the interest?

Hi Phil –

Have these been scheduled yet?

Once they are scheduled, will they be webcast?

Thanks –

Wienke
